👤 Profile:

A burgeoning Data Scientist with foundation in Electrical and Commuication Engineering. Currently enriching my skill set at ALX Africa. I am also adept at constructing websites utilizing HTML, CSS, JavaScript, Bootstrap, and Sass. My analytical acumen is evidenced by successful data analysis projects employing Power BI, SQL, and Python.

My ethos are hardwork, unwavering commitment, and an insatiable appetite for learning and thriving in dynamic environments.

Always up for the challenge!

🎓 Education:

Bahir Dar University

B. Sc. Electrical Engineering   2010
Foundations of electrical engineering with some forgettable and even fewer unforgottable people.

Adama Science and Technology University

M. Sc. Communication Engineering   2019
Not a bad job at all! Working full time, learning full time, did my thesis with almost zero advisory and claimed the high scoring graduation award!

Quite the experience!

ℹ Work Proof:
